Very helpful. His concern is us to understand. Thank you, Chris.

This course is very interesting and helpful for me. Chris created great creative atmosphere. Now I can use Macaulay in my research. The HW was ok. It helped to understand better the material we covered.

At first time, I did not totally understand what you said. But your great writing on board helped me understand clearly. Thank you for your kindness. This class is very helpful to study my field. Happy Holidays!

Chris is always available for help. When you send him code to look at he responds quickly. He was flexible with deadlines, knowing we had busy schedules. His goal was always for us to be familiar with Macaulay2.

Very helpful. Emailing the codes was excellent.

I really enjoyed how you made the class work for those of us who didn't have as much background knowledge as other. Very helpful with homework assignments. Liked using M2 in class.
